

This simple mod change the new-game loading screen with the Shaundi one found as goodies/wallpapers in the GOG version of the game. The texture itself sized at 1280x768.

Installation:

01 -- Gentlemen of the Row -- extract the zipped archive and put both **G_/PEC_PC** files to **\optional_mod_stuff\1-MODDERS_-_PUT_YOUR_OWN_PERSONAL_MODS_HERE** folder and rebuild a modded patch.VPP_PC.

02 -- SR2 MOD Manager v2.07 -- extract the zipped archive and copy the folder **SR2_GOGShaundi_NewGame_Loadscreen_v1** to the **mods** folder; run the app, check-list the mod, and rebuild a modded patch.VPP_PC.

Uninstallation:

01 -- Gentlemen of the Row -- rebuild a vanilla patch.VPP_PC.

02 -- SR2 MOD Manager v2.07 -- remove the folder **SR2_GOGShaundi_NewGame_Loadscreen_v1** from the **mods** folder. As alternative; run the app, uncheck the mod from the list and rebuild a **patch.VPP_PC**.

Compatibility: Isn't compatible with mods that share the provision; doing similar thing, same assets etc.

Hope you enjoy the mod as much as I do!

-- REDISTRIBUTION ==

I like to provide direct support to my mod/s, which wouldn't be possible if they're scattered in middle of nowhere -- so be considerate to NOT redistribute or re-release them on any websites.

However, you are welcome to use them as part of your projects but please -- be kind to ask for permission first; I'd be excited to know what's-up with their inclusion. Cheers!
